RULING ON ENTITLEMENT¹

On January 8, 2021, Brandon Pozil filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered a syncopal episode and severe facial trauma caused-in-fact by the tetanus, diphtheria, acellular pertussis (“Tdap”) vaccine he received on September 8, 2018. Petition at 1, ¶¶ 2, 12. Petitioner further alleges he received the vaccine in the United States, that he suffered the residual effects of his injury for more than six months, and that neither he nor any other party has filed a civil action or received compensation for his injury, alleged as vaccine caused. Petition at ¶¶ 2, 12, 14-15. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On March 8, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent believes "that [P]etitioner has satisfied the criteria set forth in the revised Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI")." *Id.* at 5-6.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
